PUBLIC NOTICE PROPOSED TELECOMMUNICATIONS FACILITY

The Federal Government has been vested with the statutory jurisdiction over the construction, location, site approval, erection, repair, and operation of radio antennas and the location, painting, lighting and engineering of antenna support structures in Canada. Bell Mobility Inc. is a licensed telecommunications and wireless service provider operating under Federal Regulations and the authority of Industry Canada.

As the licensing and approval agency, Industry Canada has developed a client procedures circular which sets out various procedures to be followed by the proponent of new facilities including the "Land Use Consultation" process with the local land use authority.

The residents of the City of Toronto are advised that Bell Mobility is currently in the process of formulating plans to install a 35m flagpole tower and associated equipment enclosure located on the subject lands at Part of Block A, Plan M-808, City of Toronto municipally known as 140 Guildwood Parkway. The site plan attached herein depicts Bell Mobility's telecommunications facility.

Should you require any additional information regarding this project please contact Piero Greco (Bell Mobility - Project Manager) at (905) 282-3622 or write to:
